Politikkrådene

Official estimates of fiscal support, % of 2019 GDP

Note: Countries are ordered by the scale of support with a direct budget impact. The figure shows official estimates, when available, of financial help included in emergency packages announced in selected advanced economies in response to the COVID-19 crisis, as of 14 September. In many cases, they are highly uncertain due to an unknown duration of the crisis and take-up of various programmes by the private sector, and may not be fully comparable across countries.
